

SMARTKAKE V2

Creative Processor

- One 4K UHD HDMI Input
- Four HD HDMI Outputs
- 90° Increment Image Rotation
- Aspect Ratio Adaption
- Flexible Displays Layout
- 3.5 mm Analog Audio Output
- Infinite Device Cascading
- Easy Firmware Update

4K Ultra HD

SmartKake V2 allows one 4K UHD video signal input to up to four HD 1080p outputs. This astonishing resolution and the bezel compensation function brings spectacular vision experience to every user and viewer.

Flexible Layout

Each output of SmartKake can be rotated 90°, 180°, 270° individually, which breaks the tradition MxN video wall layout. With SmartKake, you can design your multi display system in a more creative way with a mix of landscape and portrait monitors. The friendly management software of SmartKake will assist you create the layout with easy and simple steps.

Device Cascading

Multiple SmartKakes can be used together as a cascading system, which supports video walls more than 4 monitors and allows the input resolution reaches much higher than 4K. Meanwhile, cascading provides frame locking between devices which ensures the perfect synchronization of video wall performance.

Dual Port Network Connectivity

SmartKake V2 is equipped with dual ethernet port to allow users to have a better connection and management of multi-devices. Only one SmartKake is required to be physically connected to LAN, and other SmartKakes can cascade using second ethernet port by daisy chain.

Specification

Video Input	Connector	HDMI TYPE A	Image Processing	Image Rotating	90°, 180°, 270°
	Signal Format	HDMI 1.4		Bezel Compensation	Yes
	Resolution	3840x2160@30Hz, 2560x1600@60Hz, 1920x1080@60Hz, backward compatibility	Control	Ethernet	Tcp/Ip
	Audio Input	Embedded Audio Input	Environment	Temperature	0°C-40°C
Video Output	Connector	HDMI TYPE A	Dimension	Humidity	10%-90%
	Signal Format	HDMI 1.3		Weight	208x45x200mm
	Resolution	1920x1200@60Hz, 1920x1080@60Hz, backward compatibility	Power	12V/DC, 3.3A	
Mount Rack	1U Mount Rack Accessories Available			MTBF	50000h
